turn around E/7run up A-A#-B

Some girls just ain't worth it

They break up your happy home

They leave your broken heart in pieces

But I can't leave em

No I can't leave em alone

Some girls ya wanna give diamonds

Some girls ya wanna give gold

Some girls say they'd never leave ya

And then they leave ya

Leave ya right out in the cold

Some girls just ain't worth it

They break up your happy home

They leave your broken heart in pieces yeah

But I can't leave em

No I can't leave em alone

Well girls they just ain't worth it

I say it's best to leave em alone

They'll tell ya that you're their one and only

Then they start to

Yeah they start to roam

Girls you can take 'em or leave em

They'll take everything you own

They'll leave ya cryin' by the side of a road

But I can't leave em

No I can't leave em alone

Some girls just ain't worth it

They break up your happy home

They leave your broken heart in pieces yeah

But I can't leave em

No I can't leave em alone

Some girls live in mansions

Some drive in fancy cars

Some girls like to fool ya brother

Some girls leave you

Man they leave ya scars

Some girls sail in fancy boats

Some fly in fancy planes

Some girls lie and cheat on you brother

Some girls give you

I say they give ya pains

Some girls dress in classy clothes

Some girls sing and dance

Some girls got a rovin' eye

Some (of them) got no

Some (girls) got no romance

Some girls so good lookin'

Some girls so refined

Some girls are so cold and cruel

Some (of them are) are so

Some (of them are) are so unkind

Some girls got the passion

Some girls got the spark

Some girls blind ya with their charm

And then they leave ya

Leave ya right out in the dark

Girls you can take em or leave em

They'll take everything you own

They'll leave ya cryin by the side of a road

But I can't leave em

No I can't leave em alone

Girls they just ain't worth it

They break up your happy home

They leave your broken heart in pieces yeah

But I can't leave em

I said I can't leave 'em

No I can't leave em alone
